PART IV:

12. The Training Policy in Central Board of Secondary Education 510
PART-I
PRINCIPLES OF SCHOOL CURRICULUM
PRINCIPLES OF SCHOOL CURRICULUM

The CBSE’s School Curriculum gets its lead from the National Curriculum Framework (NCF) 2005.

National Curriculum Framework 2005

The paramount guiding principles as proposed by NCF-2005 are

● connecting knowledge to life outside the school,
● ensuring that learning shifts away from rote methods,
● to provide for overall development of children rather than remain textbook centric,
● making examinations more flexible and integrated into classroom life and,
● nurturing an over-riding identity informed within the democratic polity of the country.

According to NCF 2005 the greatest national challenge for education is to strengthen our participatory democracy and the values enshrined in the Constitution. Meeting this challenge implies that we make quality and social justice the central theme of curricular reform. Citizenship training has been an important aspect of formal education. Today, it needs to be boldly reconceptualised in terms of the discourse of universal human rights and the approaches associated with critical pedagogy. A clear orientation towards values associated with peace and harmonious coexistence is not only desirable but also essential. Quality in education includes a concern for quality of life in all its dimensions. This is why a concern for peace, protection of the environment and a predisposition towards social change must be viewed as core components of quality, not merely as value premises.

Aims of Education

The Aims of Education are landscaped in the guiding principles of constitution which reflect a commitment to democracy and the values of equality, justice, freedom, concern for others' well-being, secularism, respect for human dignity, and human rights. Education should aim to build a commitment to these values, which are based on reason and understanding. The curriculum, therefore, should provide adequate experience and space for dialogue and discourse in the school to promote such a commitment in children.

Independence of thought and action points to a capacity of carefully considered, value-based personal & collective decision-making. Sensitivity to others' well-being and feelings, together with knowledge and understanding of the world, should form the basis of a rational commitment to values.

Ability to learn & re-learn is important as means of responding to new situations in a flexible and creative manner. The curriculum needs to emphasise the processes of constructing knowledge.

The ability to choose in life and the ability to participate in democratic processes depend on the ability to contribute to society in various ways. This is why education must develop the ability to work and participate in economic processes and social change. This necessitates the integration of work with education.

We must ensure that work-related experiences are sufficient and broad-based in terms of skills and attitudes, that they foster an understanding of socio-economic processes, and help inculcate a mental frame that encourages working with others in a spirit of cooperation. Work alone can create a social temper.

Appreciation of beauty and art forms is an integral part of human life. Creativity in arts, literature and other domains of knowledge is closely linked
CBSE School Curriculum - The underlying Values and Rationale

The core values of CBSE School Curriculum draw its strength, by keeping pace with the 21st century and the global trends of educational transformations, as well as keeping in view that India is an independent nation with a rich variegated history, extraordinarily complex cultural diversity, and commitment to democratic values and general well-being.

One of the basic aims of education is to nurture in the learner a sound mind and strong values driven character. Learners should be educated to uphold the democratic values, respect the Rules of Law, and support humanitarian ideals; they should engage in healthy practices to be able to develop robust and healthy physiques, learn how to think for themselves and be creative.

We aim at nurturing responsible citizens with a sense of patriotism and a global perspective. In principle, education is a learning progression to help learners explore their innate capacity and talents as well as develop their potential to improve and enhance sustainability of their living environment.

Keeping this in mind we need to have a rationale with core components as follows:

- "Nurturing Life-skills" includes developing an improved self-esteem, building empathy towards others and different cultures, etc. Improving on their critical and creative thinking and making them better at problem solving with a balanced approach towards decision-making. The core life-skills must be integral to the whole process of education.
- "Integration" includes creating harmony of sense with sensibility, a connection between knowledge and application, and integrating human sciences with technological innovations.
- "Upholding Constitutional values" safeguarding values expressed in the Constitution- sovereignty, socialism, secularism, democracy, republican character, justice, liberty, equality, fraternity, human dignity and the unity and integrity of the Nation.
- "A global perspective" keeping pace with the 21st century and the global trends, enhance learner's ability to understand her status and position in the community and the world. Develop understanding how we all are interconnected and how we can bring about transformations as well as the individual's responsibility in this change process.
- "Lifelong learning" to see education as a liberating process, leading to active exploration, problem solving, and the utilization of information and languages leading to socially transformative practices.
- "Appreciating Individual Differences" to promote and nourish wide range of capacities and skills in learners. As intelligence is diverse in its dimension, pedagogy and evaluation should aim at making it possible for this diversity to bloom. Excellence in diverse areas should be accepted and rewarded.

CBSE School Curriculum Mission and Goals

The curriculum will adopt the following principles:

- to facilitate learners' spiritual, ethical, social, cognitive, mental, and physical growth and development;
- to enhance learner's innate potentials;
- to foster constitutional values and tolerance for different cultures;
- project based learning to build research capabilities;
- possible innovative pedagogies for curricular transaction transformative and beyond textbooks and learning outcomes of different levels Secondary;
- values and underlying principles of the Constitution;
● to foster constitutional values and tolerance for different cultures;

● to facilitate learners' spiritual, ethical, social, cognitive, mental, and physical growth and development;

The curriculum will adopt the following principles:

CBSE School Curriculum Mission and Goals

● "Appreciating Individual Differences" to promote and nourish wide range of capacities and skills in learners.

● "Lifelong learning" to see education as a liberating process, leading to active exploration, problem solving,

● "A global perspective" keeping pace with the 21st century and the global trends, enhance learner's ability

● "Upholding Constitutional values" safeguarding values expressed in the Constitution- sovereignty, socialism,

● "Integration" includes creating harmony of sense with sensibility, a connection between knowledge and

● "Nurturing Life-skills" includes developing an improved self-esteem, building empathy towards others

Keeping this in mind we need to have a rationale with core components as follows:

For the development of our learners to achieve the following curriculum goals:

● To enhance self-awareness and explore innate potential;

● To promote capabilities related to goal setting, decision making and lifelong learning;

● To nurture communication and interpersonal skills;

● To learn to be empathetic towards others, display dignity and respect to all, to contribute for the

community, and focus on preserving environment;

● To foster cultural learning and international understanding in an interdependent society;

● To strengthen knowledge and attitude related to livelihood skills;

● To acquire the ability to utilize technology and information for the betterment of humankind;

● To develop abilities related to thinking skills and problem solving.

● To develop creativity and the ability to appreciate art and showcase one's own talents;

Conception of Learning and Learning Environment

Learning occurs both at individual as well as peer group level and lies in the process of building knowledge and

skills. Learning, in a purposeful way, takes place by a learner independently, in class with a teacher, in out of

class interaction with the peer group and the larger community. Learning is an active and goal oriented process.

Learning environment must be physically, psychologically, and socially safe and it must motivate learners to
develop effective study skills and to become lifelong learners.

Formulation of CBSE School Curriculum

The National Curriculum Framework (NCF) 2005 is the framework on the basis of which the Central Board of
Secondary Education formulates its own curriculum and syllabus document by adopting and adapting the guidelines
and syllabus provided.

There are a number of underlying factors, which are evident in this document:

● values and underlying principles of the Constitution;

● learning outcomes of different levels Secondary;

● possible innovative pedagogies for curricular transaction transformative and beyond textbooks and

classrooms;

● project based learning to build research capabilities;
• emphasis on inclusion strategies;
• general and specific teaching and assessment objectives;
• emphasis on multiple modes of assessment through descriptors of good performance;
• provision of integrated activity based program on Environmental Education from classes I-XII;
• provision of NCC/NSS and other activities mentioned under physical education;

**Curriculum Areas at Senior Secondary Level**

For the purpose of fostering core competences in learners, the curriculum encompasses seven major learning areas, which are: Languages, Humanities, Mathematics, Sciences, Commerce, Health and Physical Education, Visual arts, Performing arts and contemporary subjects introduced in the last decade such as Entrepreneurship, Biotechnology, Fashion Studies, Creative Writing and Translation Studies, Mass Media Studies and Knowledge Traditions and Practices of India.

It refers to the content of learning, not the titles of subjects. Beyond the required core and elective courses, optional courses relevant to specific curriculum areas may also be made available in consideration of changing individual, societal and global requirements and demands.

**Major Contents of each Curriculum Learning Area in Senior Secondary Classes**

1. **Languages** include Hindi, English, another 31 languages (detailed in Curriculum Volume II) and focuses on listening, speaking, reading and writing skills, along with developing effective communicating proficiencies.

2. **Humanities** (Geography, History, Economics, Home Science, Sociology, Fine Arts, Political Science, Fashion Studies, Creative Writing and translation Studies and related subjects) include the learning of history and culture, geographical environment, global institutions, human nature and social compatibility, constitutional values and norms, politics, economy, interpersonal and societal interactions, civic responsibilities, and the incorporation of the above-mentioned learning into one’s life.

3. **Performing and Visual Arts** (Dance, Drama, Music, Heritage Crafts, Graphic Design, Fine Arts, Sculpture and related subjects) includes music, instruction in these arts, aiming to help learners cultivate an interest and appreciation for arts and encourage them to enthusiastically participate in related activities, thus promoting abilities such as imagination, creativity, value arts, and the cultural heritage.

4. **Science and Technology** (Subjects related to Biology, Chemistry, Physics, ICT, Information Practices and Web and Multimedia Studies) include gaining knowledge about matter and energy, nature, the environment, technology, breakthroughs in science. It will focus on knowledge and skills to develop scientific attitude, use and application of such knowledge and skills to improve the quality of life and further use this learning to analyse, evaluate, synthesise, create, invent and discover.

5. **Mathematics** includes acquiring the concepts related to number sense, operation sense, computation, measurement, geometry, probability and statistics, the skill to calculate and organize, and the ability to apply this knowledge and acquired skills in their daily life. It also includes understanding of the
principles of reasoning and problem solving.

6. Commerce (Business Studies, Accountancy, Entrepreneurship, Economics and related subjects) includes gaining understanding about core business disciplines like the exchange of items of value or products between persons or companies and any such exchange of money for a product, service, or information is considered a deal of commerce.

7. Health and Physical Education focuses on the learning for holistic development like mental and physical. Understanding the importance of physical fitness, health, well-being and the factors that contribute to them. Focus of this curriculum is on helping learners develop a positive attitude and commitment to lifelong healthy active living and the capacity to live satisfying, productive lives with the help of proper health management, sports, fitness and lifestyle choices.

These seven learning areas are to be integrated with each other in terms of knowledge, skills (life and livelihood), comprehension, values and attitudes. Learners should be encouraged to cognize and appreciate the interconnectedness of all knowledge and the enduring connection between knowledge and values. Their education should help them to connect the content of their learning areas and subjects with their own lives and the world around them. The holistic nature of human learning and knowledge should be brought forth throughout.

Main Learning Outcomes for Curriculum Learning Areas

1. Learners use language to comprehend, acquire and communicate ideas and information and to interact with others.
2. Learners identify, integrate and apply numerical and spatial concepts and techniques. They have clarity of concepts and are able to connect them to the real world.
3. Learners understand and appreciate the physical, biological and technological world and acquire the knowledge, and develop attitude, skills and values to make rational decisions in relation to it.
4. Learners understand their cultural, geographical and historical milieu and gain in depth knowledge, attitude, skills and values necessary to bring about transformation for a better India.
5. Learners rationalize and reason about pre-defined arrangements, norms and relationships in order to comprehend, decode, validate and develop relevant patterns.
6. Learners think laterally, critically, identify opportunity, challenge their potential and are open to challenges. They are aware of consequences and take ownership of their deeds.
7. Learners interact harmoniously with people and cultures from across the globe and are tolerant and empathetic towards others.
8. Learners involve themselves in cultural pursuits as well as appreciate, respect and acknowledge the artistic, cultural and intellectual work of others.
9. Learners value and engage in practices that promote personal, physical as well as mental and cognitive development, and well-being.
10. Learners appreciate and value everyone’s right to feel respected and safe, and, in this regard, also understand their constitutional rights as well as duties, and behave responsibly.
Implementation of Curriculum

Formulating a comprehensive and all-encompassing School Curriculum Plan (Syllabus) is an essential way forward to this Curriculum document. Schools will establish a School Curriculum Committee, which will have teachers representing each subject. This committee will be responsible to draft the school curriculum plan for the coming session, by the beginning of this session based on the Curriculum documents. This committee shall define the teaching periods for each subject for each grade, review textbooks, develop topics and activities for pedagogical practices, and evolve a plan for the teaching learning process evaluation and so as to be able to provide feedback for reflection. This committee should continue meeting, reviewing and assessing the pedagogical practices on a regular basis. Subject Experts, Scholars and professionals may also be invited to join the committee in advisory capacity, when necessary. Schools may join hands to establish an inter-school Committee within their ‘Sahodaya’ groups. These committees must ensure and record that the text books selected for classes I-VIII (other than NCERT books) do not contain any material which may hurt the sentiments of any community. The books should also reflect gender sensitivity and be in conformity with the underlying principles of the constitution of India.

This Committee will consolidate the efforts of all school staff as well as resources provided, to develop a comprehensive school-based curriculum, giving due importance to both Scholastic as well as Co-Scholastic areas.

The School Curriculum Plan (Syllabus) will include:

- Pedagogical goals of the school for the session
- Subject focused pedagogical objectives
- Mapping of units with pedagogical objectives
- Resources/activities to achieve the unit wise pedagogical objectives
- Pedagogical outcomes
- Assessment directives
- Feedback rubrics

This Plan will also contain specified descriptions on how to infuse the seven core areas (including Life Skills Education, Values Education, Gender Sensitivity, Environmental Education, Information Technology Education, Human Rights Education, Health and Wellness Education) into the teaching of each subject. It is a good idea to involve parents in formulating this plan. The plan is an effective tool to let parents connect and support the pedagogical practices of the school.

Lesson/ Unit Plans

Lesson plans for the topics will be prepared by the teachers within their faculty. This will be supported by School Curriculum Plan (Syllabus). Some important components of this plan can be:

- Specific learning outcomes
- Unit/topic learning contexts
- Pedagogical strategies
- Flow of lesson/unit (including activities/ experiments/hands-on-learning)

Lesson/Unit Plans

Lesson plans for the topics will be prepared by the teachers within their faculty. This will be supported by the School Curriculum Plan (Syllabus). Some important components of this plan can be:

- Specific learning outcomes
- Unit/topic learning contexts
- Pedagogical strategies
- Flow of lesson/unit (including activities/experiments/hands-on-learning)

- Formative assessment tasks
- Remedial teaching plan
- Interdisciplinary Linkages
- Infusion of Core (Life-skills, Values, etc.)
- Resources (including ICT)

The component of remedial teaching is to be drafted keeping in view differentiated instructional requirements of the individual learners. As the learning difficulties are observed the remedial teaching must be taken up. This should be planned with a mutual understanding with the parents and they should be informed about how the remedial instruction is being provided.

Creating Cross-Curricular Linkages

Cross-curricular linkages are vital to learning as it is important to be able to connect prior knowledge and experiences and new information and experiences. Such connections are essentially required for being able to make sense of our world and foster learning capacity.

Making links between subjects also helps learner more effectively apply and embed skills and knowledge in meaningful and purposeful contexts. For example, mathematical data handling and interpretation effectively applied in geography and science; learners can write better-framed answers in history, geography and science when they have learnt how to write explanations/short descriptions in English; Learning to make well-formed strokes can help learners illustrate their science diagrams with great perfection. Role-plays in language classrooms can act as effective tools once the learners have been exposed to dramatics. Strong links such as these can undoubtedly enhance learning in all subjects. They help learners connect, with a greater range, of the skills, attitude and knowledge they are acquiring in specific subjects. Creating cross-curricular linkages can help learners reflect on their learning. Aspects of learning - such as problem solving, reasoning, creative thinking -can be used across the curriculum.

Teachers should involve learners in cross-curricular projects thus helping learners recognise these underpinning skills and how to use them in a variety of contexts.

### 2.5 Pass Criteria

(a) A candidate will be eligible to get the pass certificate of the Board, if she gets a grade higher than 'E' in all subjects of internal assessment unless she is exempted. Failing this, result of the external examination will be withheld but not for a period of more than one year.

(b) In order to be declared as having passed the examination, a candidate shall obtain a grade higher than E (i.e., at least 33% marks) in all the five subjects of external examination in the main or at the end of the compartmental examination. The pass marks in each subject of external examination shall be 33%. In case of a subject involving practical work a candidate must obtain 33% marks in theory and 33% marks in practical separately in addition to 33% marks in aggregate in order to qualify in that subject.

(c) No overall division/distinction/aggregate shall be awarded.

(d) In respect of a candidate offering an additional subject, the following norms shall be applied:

(i) A language offered as an additional subject may replace a language in the event of a candidate failing in the same provided after replacement the candidate has English/ Hindi as one of the languages.

(ii) An elective subject offered as an additional subject may replace one of the elective subjects offered by the candidate. It may also replace a language provided after replacement the candidate has English/ Hindi as one of the languages.

(iii) Additional language offered at elective level may replace an elective subject provided after replacement, the number of languages offered shall not exceed two.

(e) Candidates exempted from one or more subjects of internal examination shall be eligible for appearing in external examination and result shall be declared subject to fulfilment of other conditions laid down in the Pass Criteria.

(f) In order to be declared as having passed the Class XI Examination, a candidate shall obtain 33% marks in all the subjects. The pass marks in each subject of examination shall be 33%. In case of subject involving practical work a candidate must obtain 33% marks in theory and 33% in practical separately in addition to 33% marks in aggregate in order to qualify in that subject.
2.6 Eligibility for Compartment Examination

A candidate failing in one of the five subjects of external examination shall be placed in compartment in that subject provided she qualifies in all the subjects of internal assessment.

2.7 Compartment Examination

(a) A candidate placed in compartment examination may reappear at the compartmental examination to be held in July the same year, may avail herself of second chance in March/April and third chance in July of next year. The candidate will be declared 'PASS' provided she qualifies the compartmental subjects in which she had failed. Syllabi and Courses shall be the same as applicable for the candidates of full subjects appearing at the examination in the year concerned.

(b) A candidate who fails to appear or fails at one or all the chances of compartment examination shall be treated to have failed in the examination and shall be required to reappear in all the subjects at the subsequent annual examination of the Board as per syllabi and courses laid down for the examination concerned in order to pass the examination. The candidates' practical marks/internal assessment marks obtained in the Main examination will be carried over till the third chance compartmental examination. The candidate shall have the option to appear at the practical examination in the subjects involving practical or retain their previous marks in one more annual examination after the third chance compartment.

(c) A candidate placed in compartment shall be allowed to appear at the subsequent three chances of Compartment only in those subjects in which she has been placed in compartment.

(d) For subjects involving practical work, in case the candidate has passed in practical at the main examination she shall appear only in theory part and previous practical marks will be carried forward and accounted for. In case a candidate has not qualified/failed in practical/internal assessment she shall have to appear in theory and practical/internal assessment both irrespective of the fact that she has already qualified/cleared the theory examination.

2.8 Retention of Practical Marks in Respect of Failure Candidates

(a) A candidate who has failed at the Senior School Certificate Examination in the first attempt shall be required to re-appear in all the subjects at the subsequent annual examination of the Board. She shall appear only in theory part and her previous practical marks will be carried forward and accounted for if she has passed in practical. In case a candidate has failed in practical she shall have to appear in theory and practical both. If she fails to pass the examination in two consecutive years, after the first attempt, she shall have to reappear in all the subjects including practical.

2.9 Additional Subject(s)

(a) A candidate who has passed the Senior School Certificate Examination of the Board may offer an additional subject as a private candidate provided the additional subject is provided in the Scheme of Studies and is offered within six years of passing the examination of the Board. No exemption from time limit will be given after six years. Facility to appear in additional subject will be available at the annual examination only.
(b) However, candidates appearing in six subjects at the Senior School Certificate Examination having been declared 'Pass' by virtue of securing pass marks in five subjects, without replacement, may reappear in the failing sixth additional subject at the Compartment Examination to be held in July the same year, provided she had appeared at the examination held in March in the said additional subject.

2.10 Improvement of Performance

(a) A candidate who has passed an examination of the Board may reappear for improvement of performance in one or more subjects in the succeeding year only; however, a candidate who has passed an examination of the Board under Vocational Scheme may reappear for improvement of performance in the main examination in the succeeding year or the following year provided they have not pursued higher studies in the meantime. They will appear as private candidates. Those reappearing for the whole examination may, however, appear as regular candidates also if admitted by the school as regular students. The candidate(s) appearing for improvement of performance can appear in the subject(s) only in which they have appeared for the Examination.

(b) For subjects involving practical work, in case the candidate has passed in practical at the main examination, she shall be allowed to appear in theory part only and marks in practical obtained at the main examination shall be carried forward and accounted for. In case a candidate has failed in practical, she shall have to appear in theory and practical both irrespective of the fact that she has already cleared the theory examination.

(c) Candidates who appear for Improvement of Performance will be issued only Statement of Marks reflecting the marks of the improvement examination.

(d) A candidate appearing for Improvement of Performance in one or more subjects cannot appear for additional subject simultaneously.

(e) Candidates appearing in six subjects at the Senior School Certificate Examination having been declared ‘Pass’ by virtue of securing pass marks in five subjects as per Rule 2.2 (iv) may appear in the failing main subject at the Compartment Examination to be held in July the same year provided she had appeared at the Examination held in March in the said subject.

Examination Byelaws

Rest of conditions for appearing in the examination shall be as laid down in the Examination Byelaws of the Board from time to time.

These courses/electives can be offered along with Business Studies, Accountancy and other subject to the following stipulations:

(i) These courses cannot be combined with the electives related to similar disciplines under the academic subjects in order to avoid duplication, e.g., Store Accounting (code no. 618) cannot be combined with Accountancy (code no. 055).

(ii) If Stenography in Hindi or English is offered, it is obligatory to offer Hindi Typewriting or English Typewriting respectively as the case may be to make the combinations more meaningful. English Stenography, however, cannot be combined with Hindi Typewriting or corollary Hindi Stenography with English Typewriting.

(iii) For detailed information, kindly see the curriculum of vocational courses.

Schools are expected to give adequate time for Community Service outside the school hours, the minimum being equivalent of two periods a week. A minimum of 30 weeks of teaching time will be available in each academic session for actual instructional transaction. The above distribution of periods over subjects is prescriptive in character. A school, keeping the overall number of periods in each subject/area the same, may assign more or less number of periods to individual sub-subjects according to their relative importance, if thought necessary.

*Life Skills, Values Education and Gender Sensitivity may be done as a part of reading learning across subjects as well through age-appropriate activities given in the Teachers’ Manuals and Activity Cards brought out by the Board.

3.4 Medium of Instruction

The medium of instruction in general in all the schools affiliated with the board shall either be English or Hindi.

3.5 Special Adult Literacy Drive (SALD)

In pursuance of the objects of the National Literacy Mission, Government of India, a Special Adult Literacy Programme has been taken up by Board from the academic session 1991-92 beginning with classes IX and XI as a special measure to help remove illiteracy, through massive involvement of students. This has been termed as SALD. The Adult Literacy Drive has been made an essential component of Work Experience. Since this activity has to be taken up by all the schools on a compulsory basis, their attention is invited, among other things, to clauses 2 and 3 of the Framework.
