HISTORY
CLASS XI-XII (2019-20)
(Code No. 027)

Rationale

Through a focus on a series of critical historical issues and debates (class XI) or on a range of important historical sources (class XII), the students would be introduced to a set of important historical events and processes. A discussion of these themes, it is hoped, would allow students not only to know about these events and processes, but also to discover the excitement of reading history.

Objectives:

- Effort in these senior secondary classes would be to emphasize to students that history is a critical discipline, a process of enquiry, a way of knowing about the past, rather than just a collection of facts. The syllabus would help them to understand the process through which historians write history, by choosing and assembling different types of evidence, and by reading their sources critically. They will appreciate how historians follow the trails that lead to the past, and how historical knowledge develops.

- The syllabus would also enable students store/relate/compare developments in different situations, analyze connections between similar processes located in different time periods, and discover the relationship between different methods of enquiry within history and the allied disciplines.

- The syllabus in class XI is organized around some major themes in the world history. The themes have been selected so as to (i) focus on some important developments in different spheres-political, social, cultural and economic, (ii) study not only the grand narratives of development-urbanization, industrialization and modernization-but also to know about the processes of displacements and marginalization. Through the study of these themes students will acquire a sense of the wider historical processes as well as an idea of the specific debates around them.

- The treatment of each theme in class XI would include
  o an overview of the theme under discussion
  o a more detailed focus ononeregionofstudy
  o an introduction to a critical debate associated with the issue.

- In class XII the focus will shift to a detailed study of some themes in ancient, medieval and modern Indian history although the attempt is to soften the distinction between what is conventionally termed as ancient, medieval and modern. The object would be to study a set of these themes in some detail and depth rather than survey the entire chronological span of Indian history. In this sense the course will be built on the
knowledge that the students have acquired in the earlier classes.

- Each theme in class XII will also introduce the students to one type of source for the study of history. Through such a study, students would begin to see what different types of sources can reveal and what they cannot tell. They would come to know how historians analyze these sources, the problems and difficulties of interpreting each type of source, and the way a larger picture of an event, a historical process, or a historical figure, is built by looking at different types of sources.

- Each theme for class XII will be organized around four sub heads:
  - a detailed overview of the events, issues and processes under discussion
  - a summary of the present state of research on the theme
  - an account of how knowledge about the theme has been acquired
  - an excerpt from a primary source related to the theme, explaining how it has been used by historians.

- While the themes in both these classes (XI and XII) are arranged in a broad chronological sequence, there are overlaps between them. This is intended to convey a sense that chronological divides and periodization do not always operate in a neat fashion.

- In the text books each theme would be located in a specific time and place. But these discussions would be situated within a wider context by
  - plotting the specific event within time-lines
  - Discussing the particular event or process in relation to developments in other places and other times.

**PROJECT WORK**

**CLASS XI (2019-20)**

**INTRODUCTION**

History is one of the most important disciplines in school education. It is the study of the past, which helps us to understand our present and shape our future. It promotes the acquisition and understanding of historical knowledge in breath and in depth across cultures.

The course of history in senior secondary classes is to enable students to know that history is a critical discipline, a process of enquiry, a way of knowing about the past rather than just a collection of facts. The syllabus helps them to understand the process, through which a historian collects, chooses, scrutinizes and assembles different types of evidences to write history.

The syllabus in class-XI is organized around some major themes in world history. In class XII the focus shifts to a detailed study of some themes in ancient, medieval and modern Indian history.

CBSE has decided to introduce project work in history for classes XI and XII in 2013-14 as a part of regular studies in classroom, as project work gives students an opportunity to develop higher cognitive skills. It takes students to a life beyond textbooks and provides them a platform to refer materials, gather information, analyze it further to obtain relevant
information and decide what matter to keep and hence understand how history is constructed.

OBJECTIVES

Project work will help students:

- To develop skill to gather data from a variety of sources, investigate diverse viewpoints and arrive at logical deductions.
- To develop skill to comprehend, analyze, interpret, evaluate historical evidence and understand the limitation of historical evidence.
- To develop 21st century managerial skills of co-ordination, self-direction and time management.
- To learn to work on diverse cultures, races, religions and lifestyles.
- To learn through constructivism—a theory based on observation and scientific study.
- To inculcate a spirit of inquiry and research.
- To communicate data in the most appropriate form using a variety of techniques.
- To provide greater opportunity for interaction and exploration.
- To understand contemporary issues in context to our past.
- To develop a global perspective and an international outlook.
- To grow into caring, sensitive individuals capable of making informed, intelligent and independent choices.
- To develop lasting interest in history discipline.

GUIDELINES TO TEACHERS

This section provides some basic guidelines for the teachers to take up projects in History. It is very necessary to interact, support, guide, facilitate and encourage students while assigning projects to them.

- The teachers must ensure that the project work assigned to the students individually/In-groups and discussed at different stages right from assigning topic, draft review to finalization.
- Students should be facilitated in terms of providing relevant materials, suggesting websites, obtaining of required permission for archives, historical sites, etc.
- The 20 periods assigned to the Project Work should be suitably spaced from April to September in classes XI and XII so that students can prepare for theory part in term - II.
- One Project should be given to the students in the month of April/May before the
summer vacation and assessment of the project to be completed by September.

- The teachers must ensure that the students submit original work.
- Project report should be hand written only.
- Eco-friendly materials can be used by students

**The following steps are suggested:**

1. Teacher should design and prepare a list of 15-20 projects and should give an option to a student to choose a project as per his/her interest.

2. The project must be done individually / In-groups.

3. The topic should be assigned after discussion with the students in the class to avoid repetition and should then be discussed at every stage of submission of the draft/final project work.

4. The teacher should play the role of a facilitator and should closely supervise the process of project completion, and should guide the children by providing necessary inputs, resources etc. so as to enrich the subject content.

5. The project work(one per year) can culminate in the form of Power Point Presentation/Exhibition/Skit/albums/files/song and dance or culture show /story telling/debate/panel discussion,paper presentation and so on. Any of these activities which are suitable to visually impaired candidates can be performed as per the choice of the student.

6. Students can use primary sources available in city archives, Primary sources can also include newspaper cuttings, photographs, film footage and recorded written/speeches. Secondary sources may also be used after proper authentication.

7. Evaluation will be done by external examiner appointed by the Board in class XII and internal in class XI.

**ASSESSMENT**

**Allocation of Marks (20)**

The marks will be allocated under the following heads:

**PROJECT WORK**

**CLASS XII (2019-20)**

**INTRODUCTION**

History is one of the most important disciplines in school education. It is the study of the past, which helps us to understand our present and shape our future. It promotes the acquisition and understanding of historical knowledge in breadth and in depth across cultures.

The course of history in senior secondary classes is to enable students to know that history is a critical discipline, a process of enquiry, a way of knowing about the past rather than just a collection of facts. The syllabus helps them to understand the process, through which a historian collects, chooses, scrutinizes and assembles different types of evidences to write history.

The syllabus in class-XI is organized around some major themes in world history. In class XII the focus shifts to a detailed study of some themes in ancient, medieval and modern Indian history.

CBSE has decided to introduce project work in history for classes XI and XII in 2013-14 as a part of regular studies in classroom, as project work gives students an opportunity to
develop higher cognitive skills. It takes students to a life beyond text books and provides
them a platform to refer materials, gather information, analyze it further to obtain relevant
information and decide what matter to keep and hence understand how history is
constructed.

**OBJECTIVES**

Project work will help students:

- To develop skill to gather data from a variety of sources, investigate diverse
  viewpoints and arrive at logical deductions.
- To develop skill to comprehend, analyze, interpret, evaluate historical evidence and
  understand the limitation of historical evidence.
- To develop 21st century managerial skills of co-ordination, self-direction and time
  management.
- To learn to work on diverse cultures, races, religions and lifestyles.
- To learn through constructivism—a theory based on observation and scientific study.
- To inculcate a spirit of inquiry and research.
- To communicate data in the most appropriate form using a variety of techniques.
- To provide greater opportunity for interaction and exploration.
- To understand contemporary issues in context to our past.
- To develop a global perspective and an international outlook.
- To grow into caring, sensitive individuals capable of making informed, intelligent and
  independent choices.
- To develop lasting interest in history discipline.

**GUIDELINES TO TEACHERS**

This section provides some basic guidelines for the teachers to take up projects in History.
It is very necessary to interact, support, guide, facilitate and encourage students while
assigning projects to them.

- The teachers must ensure that the project work assigned to the students individually/
  In-groups and discussed at different stages right from assigning topic, draft review to
  finalization.
- Students should be facilitated in terms of providing relevant materials, suggesting
  websites, obtaining of required permission for archives, historical sites, etc.
- The 20 periods assigned to the Project Work should be suitably spaced from April to
  September in classes XI and XII so that students can prepare for theory part in term - II.
• One Project should be given to the students in the month of April/May before the summer vacation and assessment of the project to be completed by September.
• The teachers must ensure that the students submit original work.
• Project report should be hand written only.
• Eco-friendly materials can be used by students

The following steps are suggested:

1. Teacher should design and prepare a list of 15-20 projects and should give an option to a student to choose a project as per his/her interest.
2. The project must be done individually/In-groups.
3. The topic should be assigned after discussion with the students in the class to avoid repetition and should then be discussed at every stage of submission of the draft/final project work.
4. The teacher should play the role of a facilitator and should closely supervise the process of project completion, and should guide the children by providing necessary inputs, resources etc. so as to enrich the subject content.
5. The project work (one per year) can culminate in the form of Power Point Presentation/Exhibition/Skit/albums/files/song and dance or culture show /story telling/debate/panel discussion,paper presentation and so on. Any of these activities which are suitable to visually impaired candidates can be performed as per the choice of the student.
6. Students can use primary sources available in city archives, Primary sources can also include newspaper cuttings, photographs, film footage and recorded written/speeches. Secondary sources may also be used after proper authentication.
7. Evaluation will be done by external examiner appointed by the Board in class XII and internal in class XI.
