- Please check that this question paper contains 13 printed pages.
- Code number given on the right hand side of the question paper should be written on the title page of the answer-book by the candidate.
- Please write down the serial Number of the question before attempting it.**
- 15 minute time has been allotted to read this question paper. The question paper will be distributed at 10:15 a.m to 10:30 a.m., the students will read the question paper only and will not write any answer on the answer-book during this period.

LEPCHA

Time allowed: 3 hours

Maximum marks: 80

The paper is divided into **Part-A & Part B**

A [MCQs]

Unseen Comprehension	2(5x1=5)	10 marks
Grammar	1x16=16	16 marks
Seen Comprehension (Prose/Poetry)	4x1=4	04 marks
	2(5x1=5)	10 marks

Part-B [Descriptive]

Prose/Poetry	2X5=10	10 marks
Treasure of Stories	3x5=15	15 marks
Writing Skills	5x3=15	15 marks

PART-A (MCQ)

Once there was a caterpillar. He was very sad. He hid under the green leaf and looked at an insect. It was so beautiful. Then he looked at his own body. He was long and green. He had pointed thorns all over his body. He thought he was really ugly. “Excuse me, who are you?” the caterpillar asked the beautiful insect. “I am a butterfly,” said the creature sitting on a yellow rose.

We get water from rain. It is the main source of water. Rain water fills wells, tanks, rivers and ponds. All of these are called sources of water. Most people in the cities get water from the taps. Water from rivers and lakes is first cleaned and then pumped to the overhead tanks. The water stored in the overhead tanks is supplied to our houses through a pipeline. We get this water from taps.
