Q.19	a. Stray threads-They are the threads that often get trapped during the processing of the stitches on the product or garments. Do not cut the locked knots; these threads should be trimmed as closely to the stitches as possible. b. Thread loops - If one observes thread loops in the same direction as of the	4

	<p>stitches, they should not be trimmed. Instead, the embroiderer can use fingernails to pull the loops to the wrong side or backside of the garment. However, if thread loops are in an opposite direction of the stitches, it is safe to trim them. They should be trimmed as closely to the stitches as possible.</p> <p>c. Ironing and packaging-After finishing the embroidered product, the product is finally ironed to remove all the creases and wrinkles and folded properly. At the end, the packing is done according to the packing methods followed in that organisation.</p> <p>d. Thread tails: Trim off the thread remains as near to the article as possible, and take care not to cut any locked knots (if made).</p>	
Q.20	<ol style="list-style-type: none"> 1. Insert at some distance and exit a half stitch length backwards. (In every case, the needle must be moved a step backward before a step is taken forward.) 2. Keep the length of the stitches equal. 3. Till the design is complete, the thread should be kept either on the left side or on the right side. 4. Proceed in this way, keeping the stitches even in length. 5. Make a loop and pull the thread from the loop to end the stitch on the backside of the fabric. 	4
Q.21	<ol style="list-style-type: none"> 1. Bring the needle through the fabric, hold the thread down, and take a stitch back through the thread, thus splitting it. 2. Take another small stitch about $1/8 - 1/4$ inches long on the marked line of the design, splitting the thread again. 3. Continue in this way until the desired number of stitches has been made. 4. Make a loop and pull the thread from the loop to end the stitch on the backside of the fabric. 	4
