PRACTICAL GUIDELINES FOR CLASS X

Assessment of performance:

In class X-The two internal examiners, assigned for the conduct and assessment of Practical Examinations each in Secondary School Curriculum (Under NSQF). Question for the viva examinations should be conducted by both the examiners. Question to be more of General nature, project work or the curriculum. Investigatory Project especially those that show considerable amount of effort and originality, on the part of the student, should get suitable high marks, while project of a routine or stereotyped nature should only receive mediocre marks.

Procedure for Record of Marks in the Practical:

For the purpose of evaluation of marks the following heads must be kept in mind and each student must be evaluated accordingly.

Project -20 marks

A 'project' can be an assessment task given to an individual student or a group of students on a topic related to the subject. The project results in a 'product' that is assessed. The project may involve both in-class and out-of class research and development. The project should be primarily a learning experience, not solely an assessment task. Because a great deal of time and effort goes into producing a quality product from a project assignment task, you should allow class time to work on the project. Projects for the final practical are given below.

Viva based on Project -05 marks

The teacher conducting the final practical examination may ask verbal questions related to the project, if any, done by the student. Alternatively, if no project has been assigned to the students, viva may be based on questions of practical nature from the field of subject as per the curriculum.

Practical File/Report / Portfolio/ Power Point presentation -15 Marks

Portfolios provide evidence for judgments of student achievement in a range of contexts. A portfolio contains a specific collection of student work or evidence. This collection of work should provide a fair, valid and informative picture of the student's accomplishments. Instructor shall assign students any outlet to study the elements in tourism.

Demonstration of skill competency in Lab Activities -10 marks

Students should be asked to demonstrate acquired knowledge through in-lab activities such as Maps, Charts, Role-play, etc.

Suggested list of Projects –

1. Make a survey report on the impacts of tourism. It shall include both positive and negative impacts.

2. Collect pictures of a person transmitting message through facial expressions or gestures and list the kinds of communication that are helpful and those that cause hindrance while performing a work.
3. Prepare a catalogue to help the staff in their grooming skills so that they always look well groomed and presentable. Include pictures and detailed information.
4. Students shall visit a local museum and create a report on it. It shall include the role of the museum in regards to the Indian culture, its social value, the intercultural perspective and the role of a museum in attracting tourism.
5. Students will create a report on any one of the 32 World heritage sites in India. It shall include introduction, history, importance, potential, and visitor information.
6. Students will do a detailed study on any one of the Tourism Products. It shall include importance, features, specialties and tourism opportunities.
7. Students will create a report on different kinds of passport and visas available for tourists around the world. It shall include salient features and privileges if any.
8. Students will create a detailed report on body language and its importance at work place. It shall include both positive and negative aspects of gestural communication.
9. Students will create a report on social etiquette and table etiquette. It shall include all the socially accepted norms.

10. Students will visit a hotel and create a catalogue on it. The catalogue shall include information about the various rooms on offer, Meal plans on offer, hotel tariff, banquets, restaurants, memberships on offer and other important services.

Guidelines for Project Preparation:

The final project work should encompass chapters on:

- a) Introduction,
- b) Identification of core and advance issues,
- c) Learning and understanding, and
- d) Observation during the project.

Activity question to be created by internal examiner, to be conducted on the practical day (30 minutes).
