MBA in Education Management and Leadership by Uttarakhand Technical University at Dehradun

The challenges of managing schools; its stakeholders, teachers, students, parents, managements, regulators and communities have escalated over time. School principals as institutional leaders are expected to know and perform diverse tasks that are far more complex than ever before.

It has thus become important for the aspiring and budding principals to prepare professionally to step into the role of the Principal as school leader. Even the established principals need to update and sharpen their leadership skills.

In the wake of such urgent need to prepare Principals as School Leaders, Uttarakhand Technical University at Dehradun has announced the launch of **MBA in Education Management and Leadership** through one of its affiliated institutions.

For teachers aspiring to become Principals, it could be an important professional development opportunity for career progression.

The university also offers a single semester [around 3 months program] **Condensed Certificate Program** for working principals, who may want a shorter program.

Since the role of the Principal is critical for school and student success, it is important that all Principals and aspiring Principals acquire skills and competencies in Institutional Management and Leadership.

Those interested may register for the program directly by logging on to http://www.selaquieducation.org/format_eml.php
