About Intel® AI Global Impact Festival 2022

Intel® AI Global Impact Festival is an annual Digital Readiness celebration to showcase AI innovation and impact by next-gen technologists and future developers with government, academia and communities.

- **Key Dates:**
 - September 1-30: Festival platform goes live
 - September 21: Winner Announcement on the platform
- **How to Participate: Celebrate-Learn-Compete** and earn badges, certificates, and awards

Celebrate

- Engage with AI: Selfie booth, AI Gaming Arena and a Social Wall
- Inspirational Talks by Intel Leaders
- Spotlight on 2021 winners

Learn

- Immerse in Talks by AI experts and self-paced micro-learning series
- Witness a showcase of AI skilling best practices by governments and partners from 25 countries
- Explore resources of Intel® AI Global Impact Festival 2021

Compete

- Witness AI innovations developed by next-gen technologists under AI Impact Creators
- Witness Best AI teaching-learning practices by teachers under AI Impact Shaper

- Participants above 18 years-old including developers, faculty members and governments are encouraged to visit and experience **Intel® Innovation** on September 27-28.
 - Intel Innovation digital is a new educational tech event for developers and industry insiders to connect with Intel leaders and industry experts to gain the perspectives and training required to shift what's possible through technology. www.intel.com/innovation
